(2) The Minister may by order make provision for the determination in accordance with the laws of Solomon Islands of any questions arising out of acts or omissions taking place in a designated area, or any part thereof, in connection with the exploration of the continental shelf or the exploitation of its natural resources and for conferring jurisdiction with respect to such questions on courts in Solomon Islands.

(3) If the Chief Marine Officer is of the opinion that any operation in respect of which an application is made to him under this section will cause or is likely to result in obstruction or danger to navigation he shall either refuse his consent or give his consent subject to such conditions as he may think fit having regard to the nature and extent of the obstruction or danger which appears to him would otherwise be caused or be likely to result.

(4) The consent of the Chief Marine Officer under this section, may be given so as to continue in force, unless renewed, only if the operation is begun or completed within such period as is specified in the consent, and any renewal of the consent may be limited in like manner.

the owner of the pipeline or, as the case may be, the person carrying on the operations, shall be guilty of an offence unless he proves, in the case of a discharge from a place in his occupation, that it was due to the act of a person who was there without his permission, express or implied, or, in the case of an escape, that he took all reasonable care to prevent it and that as soon as practicable after it was discovered all reasonable steps were taken for stopping or reducing it.

(2) This section applies to crude oil, fuel oil, lubricating oil and heavy diesel oil, as the same may be defined by the Minister by order made under this section, and to any other description of oil which may be so defined by the Minister having regard to the persistent character of that oil and the likelihood that it would cause pollution if discharged or allowed to escape into the sea.
